Paper 1 Design

May/June 2012

1 hour 15 minutes

Candidates answer on the pre-printed A3 Answer Sheets.

Additional Materials: Standard drawing equipment

To be taken together with the optional paper for which you have been entered in one session of 2 hours and 15 minutes.

READ THESE INSTRUCTIONS FIRST

Write your Centre number, candidate number and name in the spaces on **both** printed Answer Sheets.

Write in dark blue or black pen.

You may use a soft pencil for any diagrams, graphs or rough working.

Do not use staples, paper clips, highlighters, glue or correction fluid.

Answer **one** question.

Write/draw your answers in the spaces provided on the Answer Sheets.

You may use a calculator.

At the end of the examination, fasten all your work securely together.

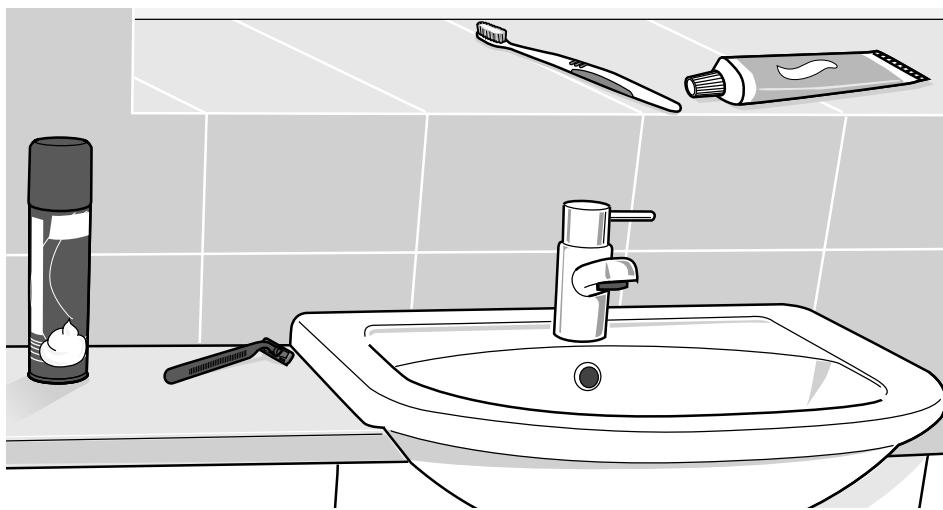

The number of marks is given in brackets [] at the end of each question or part question.

This document consists of **4** printed A4 pages and **2** A3 Inserts.

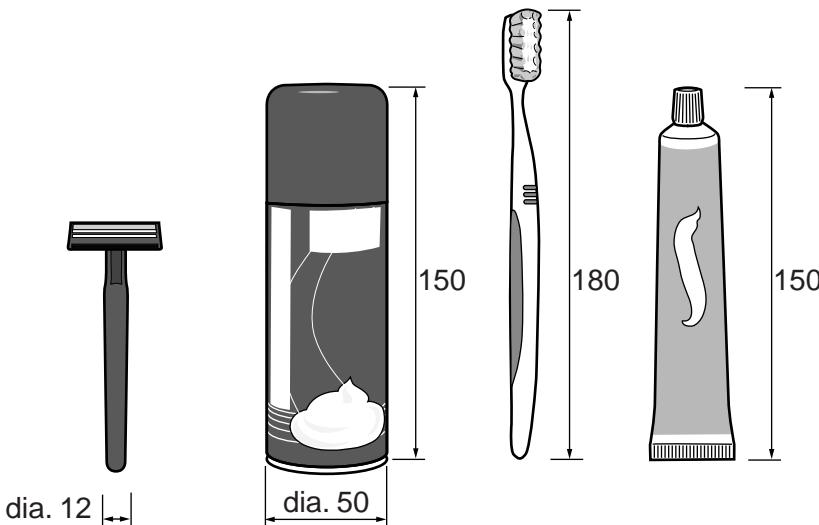

Answer **one** question only on the A3 pre-printed answer sheets provided.

- Cleaning can be difficult when items are left lying around in a bathroom.

The following items need to be stored ready for daily use.

Design a unit that would hold all of the items shown above.

- List **four** additional points about the function of such a unit that you consider to be important. [4]
- Use sketches and notes to show **two** places in a bathroom where such a unit might be positioned. [4]
- Develop and sketch **three** ideas for the unit. [12]
- Evaluate your ideas and justify why you have chosen **one** idea to develop more fully. [8]
- Draw, using a method of your own choice, a full solution to the problem. Include construction details and major dimensions. [12]
- Suggest suitable specific materials for your solution and give reasons for your choice. [4]
- Outline a method used to manufacture **one** part of your solution in the school workshop. [6]

- 2 Games are a good way of encouraging children to think about environmental issues.

Design a game called SAVE OUR PLANET that could be played by up to four children, 8 to 10 years old. The design should be made in lightweight materials and include the packaging.

- (a) List **four** additional points about the function of such a game that you consider to be important. [4]
- (b) List **four** environmental issues on which games could be based. [4]
- (c) Develop and sketch **three** ideas for a game. [12]
- (d) Evaluate your ideas and justify why you have chosen **one** idea to develop more fully. [8]
- (e) Draw, using a method of your own choice, a full solution to the problem. Include construction details and major dimensions. [12]
- (f) Suggest suitable specific materials for your solution and give reasons for your choice. [4]
- (g) Outline a method of producing a prototype of your game in the school graphics studio. [6]

- 3 Cooking outdoors on an open fire is very popular but it is often difficult to hold food over the fire so that all sides of the food are cooked properly.

Design a cooking device that would hold a piece of meat or fish over an open fire so that all sides of the food are cooked.

- (a) List **four** additional points about the function of such a cooking device that you consider to be important. [4]
- (b) Use sketches and notes to show **two** mechanisms that would allow food to be turned while it is cooking over the fire. [4]
- (c) Develop and sketch **three** ideas for the cooking device. [12]
- (d) Evaluate your ideas and justify why you have chosen **one** idea to develop more fully. [8]
- (e) Draw, using a method of your own choice, a full solution to the problem. Include construction details and major dimensions. [12]
- (f) Suggest suitable materials for your solution and give reasons for your choice. [4]
- (g) Outline a method used to manufacture **one** part of your solution in the school workshop. [6]
