## Western Cape, South Africa

This area of outstanding beauty is in the south west corner of South Africa. South Africa's legislative capital, Cape Town, is situated at the foot of Table Mountain. About an hour's drive away from Cape Town is the Cape of Good Hope Nature Reserve, with many plants and animals.

Part of the coast is known as the Garden Route because of the forest which used to line the coast. Mossel Bay was one of the first harbours visited by European sailors and has an excellent museum. Wilderness is a resort between the trees and lakes of the Wilderness Natural Reserve, an excellent place for bird watching and canoeing.

As well as the Garden Route, popular guided tours include Simonstown (a Victorian town with the only penguin colony in mainland Africa), Groot Constantia (one of the first wine farms in the Cape) and the outlying townships of Crossroads and Khayelitsha. It may not be safe for tourists to visit these last two areas on their own. For energetic tourists, it is possible to walk or hike to the top of Table Mountain and Chapman's Peak, both of which have spectacular views.

## Fig. 6

- (a) Using information from Fig. 6 only, for each of the following tourist attractions, name one location in the Western Cape where it is found:
