MARK SCHEME

Maximum Mark: 50

---

**Published**

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge will not enter into discussions about these mark schemes.

Cambridge is publishing the mark schemes for the May/June 2017 series for most Cambridge IGCSE<sup>®</sup>, Cambridge International A and AS Level and Cambridge Pre-U components, and some Cambridge O Level components.

© IGCSE is a registered trademark.

This syllabus is approved for use in England, Wales and Northern Ireland as a Cambridge International Level 1/Level 2 Certificate.

This document consists of **27** printed pages.

**1 General Marking Principles****1.1 Crossing out:**

<b>(a)</b>	If a candidate changes his/her mind over an answer and crosses out an attempt, award a mark if the final attempt is correct.
<b>(b)</b>	If a candidate crosses out an answer <u>to a whole question</u> but makes no second attempt at it, mark the crossed out work.

**1.2 For Questions 2 and 3, if the candidate has written an answer in the space provided for that purpose, you should ignore anything written anywhere else, unless:**

<b>(a)</b>	there is an indication from the candidate that other material should be considered.
<b>(b)</b>	the candidate has continued their answer outside the space provided.
<b>(c)</b>	there is no answer in the space provided.

**1.3 Annotation used in the Mark Scheme:**

<b>(a)</b>	tc = 'tout court' and means that on its own the material is not sufficient to score the mark.
<b>(b)</b>	BOD = benefit of the doubt and is used to indicate that the Examiner has considered the answer/that part of the answer and judged it to be more correct than incorrect: the benefit of the doubt is given to the candidate and the mark is awarded.

**1.4 No response and '0' marks**

There is a NR (No Response) option in **RM Assessor**.

**Award NR (No Response):**

If there is nothing written at all in the answer space or

If there is only a comment which does not in any way relate to the question being asked (e.g. 'can't do' or 'don't know') or

If there is only a mark which isn't an attempt at the question (e.g. a dash, a question mark).

**Award 0:**

If there is any attempt that earns no credit. This could, for example, include the candidate copying all or some of the question, or any working that does not earn any marks, whether crossed out or not.

**PUBLISHED**

- 1.5 Optional questions:** You must mark all questions attempted by the candidate. Where a question has not been attempted then NR must be entered. (For Question 3 only, after marking the question(s) the candidate has answered, NR is populated automatically when you click on 'Complete'.) Where the candidate attempts more than one of the alternatives in Question 3, RM Assessor will automatically only aggregate the candidate's best result.

Question	Answer	Marks
<b>2 Detailed Mark Scheme</b>	<p><b>Question 1</b></p> <p>Candidates are required to list 8 items in German. Read all of the items that the candidate has listed and award marks as follows:</p> <p>(i) <b>Select the most correct items up to a maximum of 5. Award 1 mark for each correct item up to a maximum of 5.</b> Stop ticking once 5 items have been rewarded.</p> <p>(ii) On Question 1, award marks for items wherever the candidate has written them.</p> <p>(iii) If the candidate offers more than one word per line, award a mark for each acceptable item.</p> <p>(iv) The pictures provided on the question paper are only suggestions.</p> <p>(v) Mark for communication. Tolerate inaccuracies, provided the message is clear. Ignore any definite / indefinite article, possessive adjective, etc. Ignore any verbs.</p> <p>(vi) If spelling is questionable, start by referring to the detailed mark scheme. Refer to the bullet points below if no decision on the spelling you have encountered is recorded there.</p> <p style="padding-left: 20px;">‘If in doubt, sound it out’: if you read what the candidate has written, does it sound like the correct answer?</p> <p style="padding-left: 20px;">Look-alike test: does what the candidate has written look like the correct answer, e.g. one letter missing but no other word created.</p> <p style="padding-left: 20px;">If the first part of the word is correct, small errors in what comes next are less likely to impede communication (unless they suggest another meaning).</p> <p style="padding-left: 20px;">Where letters are transposed, the word is likely to communicate (unless another word has been created).</p> <p>(vii) If there are five clearly acceptable items, award marks wherever these are in the list. This approach may allow questionable versions to be ignored.</p> <p>(viii) Refuse all nouns which are repeated and which do not have a separate meaning:</p> <p style="padding-left: 20px;"><i>Hose, kurze Hose</i>: award one mark to each item</p> <p style="padding-left: 20px;"><i>Kleine Hose, blaue Hose</i>: award one mark for the first <i>Hose</i></p> <p>(ix) Reject misspelt words which suggest a word with a quite different meaning. Where nouns are usually plural, accept the singular and vice versa.</p>

<b>Grade descriptors for Other linguistic features (Question 3)</b>		
11–12	Uses a wide range of structures effectively; produces longer, fluent sentences with ease. Highly accurate at this level, though not necessarily faultless. Makes effective use of a wide range of vocabulary fully appropriate to the task.	
9–10	Attempts a range of structures with a good degree of success. More complex language usually error-free. Uses a variety of relevant vocabulary at this level.	
7–8	In control of simple structures. Varied success with more complex structures. Accuracy is fairly consistent throughout. Errors may occur when more ambitious language is attempted. Has sufficient vocabulary to add some interest to the writing.	
5–6	Attempts more than basic structures. On balance, the work is more accurate than inaccurate. Straightforward vocabulary relevant to the task.	
3–4	Reliant on basic structures. Some examples of correct language. Meaning usually conveyed. Basic vocabulary.	
1–2	A few phrases or short sentences are accurate enough to be comprehensible. Very simple sentence structure.	
0	One or two disjointed words or short phrases may be recognisable.

**Appendix I****Note on using mark schemes with Grade descriptors**

It is important that you award marks positively. In order to ensure that you reward achievement rather than penalise failure or omissions, you should start at the bottom of the mark scheme and work upwards through the descriptors when awarding marks.

You should adopt a 'best fit' approach. You must select the set of descriptors provided in the mark scheme that most closely describes the quality of the work being marked. As you work upwards through the mark scheme, you will eventually arrive at a set of descriptors that fits the candidate's performance. When you reach this point, you should always then check the descriptors in the band above to confirm whether or not there is just enough evidence to award a mark in the higher band.

For example, when marking Question 3 you may find that a candidate uses a variety of relevant vocabulary but has varied success with more complex structures. In such cases, you will need to award a mark that takes into account both the strengths and weaknesses of the piece of work.

To select the most appropriate mark within each set of descriptors, use the following guidance:

If most of the descriptors fit the piece (and after you have considered the band above), award the top mark in the band.

If there is just enough evidence (and you had perhaps been considering the band below), award the lowest mark in the band.

**Note on irrelevant material**

In the case of a deliberately evasive answer which consists entirely of irrelevant material exploited in defiance of the rubric, a score of 0 is given. This is extremely rare.

A genuine attempt to answer the question which fails due to a misunderstanding of the rubric will normally lose Communication marks but will score for Language. You should consult your Team Leader.

See separate document for more detailed guidance on irrelevant material.

## Appendix II: Generic guidance on awarding ticks for Communication

Example 1: *Beschreiben Sie, was Sie mit Ihrer Familie gemacht haben.*

Candidate's response	Ticks for Communication	Reason for mark
<i>Ja ich mit meiner Familie gemacht.</i>	0	Nothing of worth communicated.
<i>Wir bin einen Ausflug in die Berge gemacht.</i>	1	Some meaning conveyed – use of 'bin' makes message ambiguous (Is it <i>wir</i> or <i>ich</i> ?).
<i>Wir haben einen Ausflug in die Berge.</i>	0	Message not communicated. Attempt has been made at appropriate time frame but no attempt at appropriate verb
<i>Wir haben einen Ausflug in die Berge gemacht.</i>	1	Appropriate choice of verb, verb recognisable in its form but incorrect (still communicates some meaning)
<i>Wir habe einen Ausflug in die Berge gemacht.</i>	1	Appropriate choice of verb, verb recognisable in its form but incorrect (still communicates some meaning)
<i>Wir habe einen Ausflug in die Berge gemacht.</i>	1	Appropriate choice of verb, verb recognisable in its form but incorrect (still communicates some meaning)
<i>Wir einen Ausflug in die Berge gemacht.</i>	1	Appropriate choice of verb, verb recognisable in its form but incorrect (still communicates some meaning)
<i>Wir einen Ausflug in die Berge gemacht.</i>	1	Appropriate choice of verb, verb recognisable in its form but incorrect (still communicates some meaning)
<i>Wir habe ein neues Auto.</i>	1	Appropriate choice of verb, verb recognisable in its form but incorrect (still communicates some meaning)
<i>Wir machen einen Ausflug in die Berge.</i>	1	Appropriate choice of verb, verb recognisable in its form but incorrect (in its time frame) (ambiguous but still communicates some meaning)
<i>Ich habe mit meiner Familie einen Ausflug in die Berge gemacht.</i>	2	Message clearly communicated.
<i>Ich habe einen Ausflug in die Berge gemacht.</i>	2	Minor error is tolerated

**Example 2:** *Beschreiben Sie einen Tag, an dem Sie viel Sport getrieben haben. Was war besonders schwierig und warum?*

Candidate's response	Ticks for Communication	Reason for mark
<i>Ich viel Sport getrieben haben.</i>	0	nothing of worth communicated.
<i>Das Schwimmen was schwierig.</i>	0	Meaning not conveyed ( <i>was</i> doesn't communicate message in German)
<i>Das Schwimmen war für mich besonders schwierig.</i>	1	Some meaning is conveyed but the message is incomplete (no reason is given).
<i>Das Schwimmen war für mich besonders schwierig, weil das Wasser so kalt war.</i>	2	Message clearly communicated.

**3 steps to award Communication marks:**

- 1) Check against Communication task > Has the task been attempted? (no attempt → no Comm. tick)
- 2) Find the best attempt at the task
- 3) In that task, is the message clear (2 ticks) or ambiguous/(unclear) (1 tick) or absent (0 ticks)? (see table above)

**Additional notes on the award of Communication ticks in Q3 where part of the sentence is incorrect/unclear/ambiguous.**

In order for 2 Communication ticks to be awarded to the message, the **clause** containing the message has to be clear/without ambiguity/in the appropriate time frame.

*Letztes Wochenende im Sportzentrum **haben wir Federball gespielt** und wir haben Sport getrieibt.*

*Ich kann die Bergen bestiegen, freschen Luft atmen und **in der Natur wandern.***

Although part of each sentence above may be ambiguous/unclear /contain inaccuracy, we can award 2 Communication ticks each time because the key message is contained in a clause which is clear, accurate, without ambiguity and in the appropriate time frame.

**Additional Notes on awarding Verb Ticks in Q3**

Please note the following regarding verb ticks for verbs followed by **infinitive, nominalised verb or object**.

**Ich bin schwimmen gegangen/Schwimmen gegangen (✓)**

*In this example ,Schwimmen gehen' should be treated as one concept. So ,Ich bin schwimmen gegangen/Schwimmen gegangen' is credited with 1 verb tick (just like ,ich bin Fahrrad gefahren'). Accept ,schwimmen gegangen/Schwimmen gegangen' (use of capital letters considered under OLF).*

**Ich mag/liebe (✓) schwimmen gehen/Schwimmen gehen (x)**

*Ich mag/ich liebe are correct and worth 1 verb tick.*

*In this example the verbs mögen and lieben are transitive and should be followed by an object. Hence in this example do not credit verb tick for ,schwimmen gehen/Schwimmen gehen' as in this case it is nominalised and cannot be treated as a verb.*

*Note: The message does, however, perfectly communicate and so should gain 2 Communication ticks. There is no ambiguity.*

**Ich mag/liebe (✓) es, schwimmen zu gehen/Schwimmen zu gehen (✓)**

*Ich mag/ich liebe are correct and worth 1 verb tick.*

*In this example the verbs mögen and lieben are transitive and are followed by the object es. The infinitive which follows requires the use of zu.*

*Accept ,schwimmen zu gehen/Schwimmen zu gehen' for 1 verb tick (use of capital letters considered under OLF).*

**Ich kann/muss/soll/will (✓) schwimmen gehen/Schwimmen gehen (✓)**

*Modal verbs are correct and worth 1 verb tick.*

*In this example the modal verbs are intransitive and should be followed by an infinitive.*

*In this example ,schwimmen gehen/Schwimmen gehen' is the infinitive but should be treated as one concept with 1 verb tick (just like ,Fahrrad fahren'). Accept ,schwimmen gehen/Schwimmen gehen' (use of capital letters considered under OLF).*
