Answer **all** the questions.  
Write your answers on the separate Answer Paper provided.  
Give non-exact numerical answers correct to 3 significant figures, or 1 decimal place in the case of angles in degrees, unless a different level of accuracy is specified in the question.  
The use of an electronic calculator is expected, where appropriate.  
You are reminded of the need for clear presentation in your answers.

**Mathematical Formulae****1. ALGEBRA***Quadratic Equation*
