Paper 1

October/November 2016

1 hour 45 minutes

Candidates answer on the Question Paper.

No Additional Materials are required.

READ THESE INSTRUCTIONS FIRST

Write your Centre number, candidate number and name on all the work you hand in.

Write in dark blue or black pen.

You may use an HB pencil for any diagrams or graphs.

Do not use staples, paper clips, glue or correction fluid.

DO NOT WRITE IN ANY BARCODES.

Section A

Answer all questions in this section.

Write your answers in the spaces provided on the Question Paper.

Section B

Answer all questions in this section.

Write your answers in the spaces provided on the Question Paper.

Electronic calculators may be used.

You may lose marks if you do not show your working or if you do not use appropriate units.

At the end of the examination, fasten all your work securely together.

The number of marks is given in brackets [] at the end of each question or part question.

Section A

Answer \boldsymbol{all} the questions in the spaces provided.

1	State one example of a fixed or immovable (fibrous) joint.	
2	Explain why performers should try to control their emotions when playing a sporting activity.	[1]

Section B

Answer **all** the questions in the spaces provided.

Unit 1 Factors affecting performance

12	(a)	Provide an example of an extremely open skill and of an extremely closed skill.				
		open skill				
		closed skill				
		[2]				
	(b)	Identify three components of a synovial joint and describe how each helps movement at a joint.				
		[3]				
	(c)	Describe three features of one type of muscle fibre and the effects that each feature has for a performer.				
		muscle fibre				
		[3]				

(d)	The use of blood doping is banned by the International Olympic Committee (IOC).
	Describe how blood doping is carried out and the performance enhancing effect it has on an athlete.
	[3]
(e)	Explain the short-term effects and the long-term effects of exercise on the respiratory system.
	[4]

(f)	Identify four components of health related fitness and describe a suitable test for each component.
	component 1
	component 2
	component 3
	component 4
	[4]

(g) (i)	Goal setting may be used to bring about an improvement in performance.
	Suggest a suitable target for a named activity.
	activity
	target
	[1]
(ii)	Use examples to describe how goal setting can bring about improvements in performance.
	[5]

Unit 2 Health, safety and training

13	(a)	Identify two social benefits to a performer of taking part in a team sport.
		[2]
	(b)	Give two reasons why a teenager usually requires more energy than a young child.
		[2]
	(c)	Give different examples of how wearing appropriate footwear can help prevent injury.
		[3]
	(d)	Describe the safety considerations that group leaders should take into account when planning a mountainous winter sports activity.
		[4]

(e)	Describe the benefits and negative effects of using circuit training with large groups of participants.					
	[4]					
(f)	An athlete runs in a competitive 1500 metre race on a flat athletics track.					
	In the first part of the race they run quickly for the first 200 metres, but not at full pace, to establish their position in the race.					
	The middle part of the race is run at a steady pace.					
	The final 400 metres is run at a faster pace, with a sprint over the final 200 metres.					
	Explain the changes in aerobic and anaerobic respiration in each part of the run.					
	first part of the race					
	middle part of the race					
	final part of the race					
	[5]					

[Total: 20]

Unit 3 Reasons and opportunities for participation in physical activity

14	(a)	Explain how a young person's social circumstances can influence the sports they might participate in.
		[2]
	(b)	Describe the factors that will affect a young person's ability to become an elite performer.
		[3]
	(c)	Explain why there has been an increase in the number of dedicated sports channels on television.
		[4]

(d)	Explain the different ways that sports centres have made sport more accessible for performers with physical disabilities.
	[6
	[·
