Drawing and/or Painting from a Living Person

Candidates should be instructed that, in either question, the relevant parts of the model's surroundings should be considered as part of the study.

- 1 Supported by flat cushions, the model is seated on the floor with their back resting against a wall; one leg is bent at the knee.

*Candidates should be instructed that they are to make a study of the whole figure. They may **also**, if they wish, include studies of other details such as the head or hands. These may be completed on an additional sheet.*

- 2 A game, such as dominoes, chess or mah-jong is placed on a table in front of the seated model. One hand reaches forward as if about to move one of the pieces.

*Candidates should be instructed that they are to make a study of the head and shoulders. They may **also**, if they wish, include studies of other details such as the head or the hands. These may be completed on an additional sheet.*
