UNIVERSITY OF CAMBRIDGE INTERNATIONAL EXAMINATIONS GCE Ordinary Level

MARK SCHEME for the May/June 2007 question paper

7094 BANGLADESH STUDIES

7094/02 Paper 2 (Environment and Development of Bangladesh),

maximum raw mark 75

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began.

All Examiners are instructed that alternative correct answers and unexpected approaches in candidates' scripts must be given marks that fairly reflect the relevant knowledge and skills demonstrated.

Mark schemes must be read in conjunction with the question papers and the report on the examination.

CIE will not enter into discussions or correspondence in connection with these mark schemes.

CIE is publishing the mark schemes for the May/June 2007 question papers for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level syllabuses and some Ordinary Level syllabuses.

		GCE O LEVEL – May/June 2007	7094	02
1 (a) (i	ove low	n sea temperatures r 27°C pressure verging air currents		[2]
(ii	cond	m, moist air rises rapidly/evaporation from oceans cool denses/creation of latent heat air drawn inwards/in spiralling motion ential/heavy rain	s	
		air in centre sinks		[5]
(iii				
	no r clea	ain ır skies		[3]
(b) (i	stro	d rise in sea level ng winds push sea water onto coast es (several metres) high		[3]
(ii	injur hous crop	ses destroyed/homeless os destroyed stock killed		

Mark Scheme

Syllabus

Paper

(c) embankments - strengthened

disease - cholera, etc.

fishing boats destroyed

difficult for aid to be distributed

famine loss of jobs

Page 2

new ones

cyclone shelters – on stilts
