Paper 2 Reading and Writing

**October/November 2021**

**MARK SCHEME**

Maximum Mark: 70

---

**Published**

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge International will not enter into discussions about these mark schemes.

Cambridge International is publishing the mark schemes for the October/November 2021 series for most Cambridge IGCSE™, Cambridge International A and AS Level components and some Cambridge O Level components.

This document consists of 7 printed pages.

**Generic Marking Principles**

These general marking principles must be applied by all examiners when marking candidate answers. They should be applied alongside the specific content of the mark scheme or generic level descriptors for a question. Each question paper and mark scheme will also comply with these marking principles.

**GENERIC MARKING PRINCIPLE 1:**

Marks must be awarded in line with:

- the specific content of the mark scheme or the generic level descriptors for the question
- the specific skills defined in the mark scheme or in the generic level descriptors for the question
- the standard of response required by a candidate as exemplified by the standardisation scripts.

**GENERIC MARKING PRINCIPLE 2:**

Marks awarded are always **whole marks** (not half marks, or other fractions).

**GENERIC MARKING PRINCIPLE 3:**

Marks must be awarded **positively**:

- marks are awarded for correct/valid answers, as defined in the mark scheme. However, credit is given for valid answers which go beyond the scope of the syllabus and mark scheme, referring to your Team Leader as appropriate
- marks are awarded when candidates clearly demonstrate what they know and can do
- marks are not deducted for errors
- marks are not deducted for omissions
- answers should only be judged on the quality of spelling, punctuation and grammar when these features are specifically assessed by the question as indicated by the mark scheme. The meaning, however, should be unambiguous.

**GENERIC MARKING PRINCIPLE 4:**

Rules must be applied consistently, e.g. in situations where candidates have not followed instructions or in the application of generic level descriptors.

**GENERIC MARKING PRINCIPLE 5:**

Marks should be awarded using the full range of marks defined in the mark scheme for the question (however; the use of the full mark range may be limited according to the quality of the candidate responses seen).

**GENERIC MARKING PRINCIPLE 6:**

Marks awarded are based solely on the requirements as defined in the mark scheme. Marks should not be awarded with grade thresholds or grade descriptors in mind.

**Generic mark schemes****Quality of Language – Accuracy (Questions 3, 4 and 5)****5 Very good**

Consistently accurate. Only very few errors of minor significance. Accurate use of more complex structures (verb forms, tenses, prepositions, word order).

**4 Good**

Higher incidence of error than above, but clearly has a sound grasp of the grammatical elements in spite of lapses. Some capacity to use accurately more complex structures.

**3 Sound**

Fair level of accuracy. Common tenses and regular verbs mostly correctly formed. Some problems in forming correct agreement of adjectives. Difficulty with irregular verbs, use of prepositions.

**2 Below average**

Persistent errors in tense and verb forms. Prepositions frequently incorrect. Recurrent errors in agreement of adjectives.

**0–1 Poor**

Little or no evidence of grammatical awareness. Most constructions incomplete or incorrect. Consistent and repeated error.

**Additional marking guidance for Quality of Language – Questions 3 and 4**

The five marks available for Quality of Language are awarded **globally** for the whole performance on each set of answers.

A concise answer, containing all mark-bearing components for Content is scored on the full range of marks for language, i.e. length does not determine the Quality of Language mark.

**Answers scoring 0 for Content** cannot contribute to the overall Quality of Language mark.

Identify the answer(s) scoring 0 for Content in the whole set of answers. Then add together the number of Content marks available for each of these questions and reduce the Quality of Language mark according to the following table:

| Total Content marks available on questions where a candidate scores 0 | Reduce Quality of Language mark by: |
|---|-------------------------------------|
| 2–3   | 1                                   |
| 4–5   | 2                                   |
| 6–7   | 3                                   |
| 8–14  | 4                                   |
| 15  | 5                                   |
|   |                                     |

**Note:** A minimum of one mark for Quality of Language should be awarded if there are any Content marks at all (i.e. 0 Quality of Language marks only if 0 Content marks).

**Question 5 Length of 5(a) + 5(b) (Summary and Response to the texts)**

Writing within the maximum length is part of the task, and candidates who remain within the limit (140 words in total) deserve credit. There is 10-word latitude to bring the tolerated total to 150 words.

For these purposes, a word is defined as any item that stands alone and is not joined by a hyphen or apostrophe.

**Question 5(b) – response to the texts**

This should be marked as a mini-essay according to the variety and interest of the opinions and views expressed, the candidate's response to the original text stimulus, and their ability to express a personal point of view.

|   |
|---|
| <b>5 Very good</b><br>Varied and interesting ideas, showing an element of flair and imagination, a capacity to express a personal point of view.  |
| <b>4 Good</b><br>Not the flair and imagination of the best candidates, but work still shows an ability to express a range of ideas, maintain interest and respond to the issues raised. |
| <b>3 Sound</b><br>A fair level of interest and ideas. May concentrate on a single issue, but there is still a response to ideas in the text.  |
| <b>2 Below average</b><br>Limited range of ideas; rather humdrum. May disregard the element of response to the text, and write a largely unrelated free-composition.                    |
| <b>0–1 Poor</b><br>Few ideas to offer on the theme. Banal and pedestrian. No element of personal response to the text. Repeated error.  |

**In Question 5, the Quality of Language mark** will not exceed 50% of the sum of the other two marks for 5(a) and 5(b). This is to prevent candidates producing (possibly pre-learned) material which may be in high quality Afrikaans but has little or nothing to do with the question.
